- 🔩 Insert three WOOD DOWELS (3) into the ENDS (A and B) and UPRIGHT (C).
- 🔩 Fasten the BOTTOM (F) to the ENDS (A and B) and UPRIGHT (C). Use six 1-3/8" FLAT HEAD SCREWS (7).

If you're doing this to help a friend, don't leave without a bite.

Step 13

Caution

Tempered safety glass is used. It is stronger than normal glass, and it will not break into long, sharp, knife-like shards. However, safety glass **can break**. When safety glass breaks, it instantly fractures into small, bead-like pieces. These small pieces may have sharp edges.

For your safety, follow these precautions when you assemble your product:

- Wear safety glasses or other eye protection.
- Do not try to drill into or cut safety glass. It will instantly break into small pieces.
- Do not force the glass into position.
- If the glass breaks, be careful when you pick up the pieces. They may have sharp edges.

 Carefully set the GLASS TOP (E) onto the GLASS FRAME (K).

Step 14

- ✦ Peel APPLIQUES from the APPLIQUE CARDS (4) and stick them onto each visible HIDDEN CAM.
- ✦ NOTE: Please read the back pages of the instruction booklet for important safety information.
- ✦ This completes assembly. Clean with a damp cloth. Wipe dry.
