## ⚠ WARNING

Use of a TV that is too heavy or large is hazardous. A TV that is too heavy will create a risk of a tip-over that can cause severe injury or death. A TV that is too large for the available space might be accidentally pushed or bumped off the furniture, or subject to tip-over.

- Check the size and weight of your TV. Compare it to the diagram below – **before you begin assembly!**
- This Sauder unit is designed for use with flat panel televisions weighing less than 50 pounds. **Never** use with a TV that weighs more.
- The size of the television, front-to-back and side-to-side, must fit within the space defined in the diagram.
  - **Never** place the front edge of the TV past the front edge of the TV support shelf (or stop molding – if equipped)
  - **Never** allow the sides of the TV to extend past the side edges of the TV support surface.
- Be sure to apply the warning label as instructed later in the assembly. The label provides important safety related information.

Place the heavier items on lower shelves as far back from the front as possible.

Load the bottom surfaces first to avoid top-heavy furniture.
