Caution

Tempered safety glass is used. It is stronger than normal glass, and it will not break
into long, sharp, knife-like shards. However, safety glass *can break*. When safety glass
breaks, it instantly fractures into small, bead-like pieces. These small pieces may have
sharp edges.

For your safety, follow these precautions when you assemble your product:
• Wear safety glasses or other eye protection.
• Do not try to drill into or cut safety glass. It will instantly break into small pieces.
• Do not force the glass into position.
• If the glass breaks, be careful when you pick up the pieces. They may have sharp edges.

50 lbs.
22 kg.

Stick the GLASS PADS (G) onto
the TOP RING (A) as shown. Then,
carefully set the GLASS TOP (C) onto
the GLASS PADS.

This completes assembly.
